

## DOORS

### P30 DOOR

With this new door optimization and weight reduction without sacrificing the quality, we get the same class as the bulkhead where it has to be mounted, obtaining an A Class room or bulkhead.

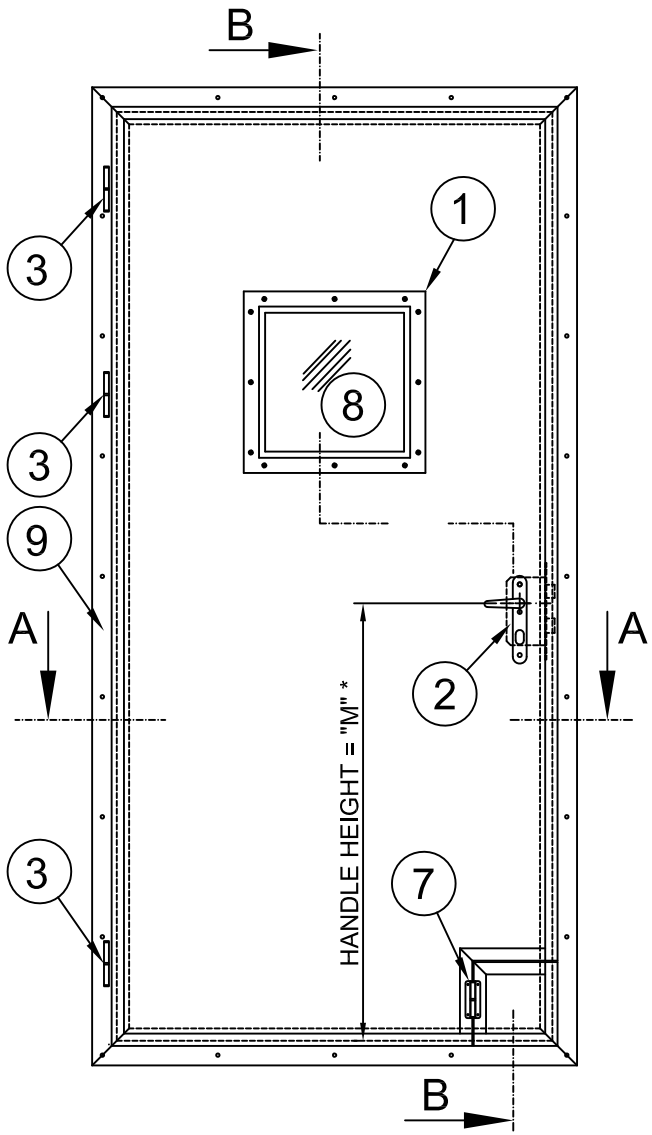

The door is made up by a stainless steel or painted steel frame, a leaf and corresponding closing and hanging devices; stainless steel handle and lock, hinge with built-in self-closing device or door closer.

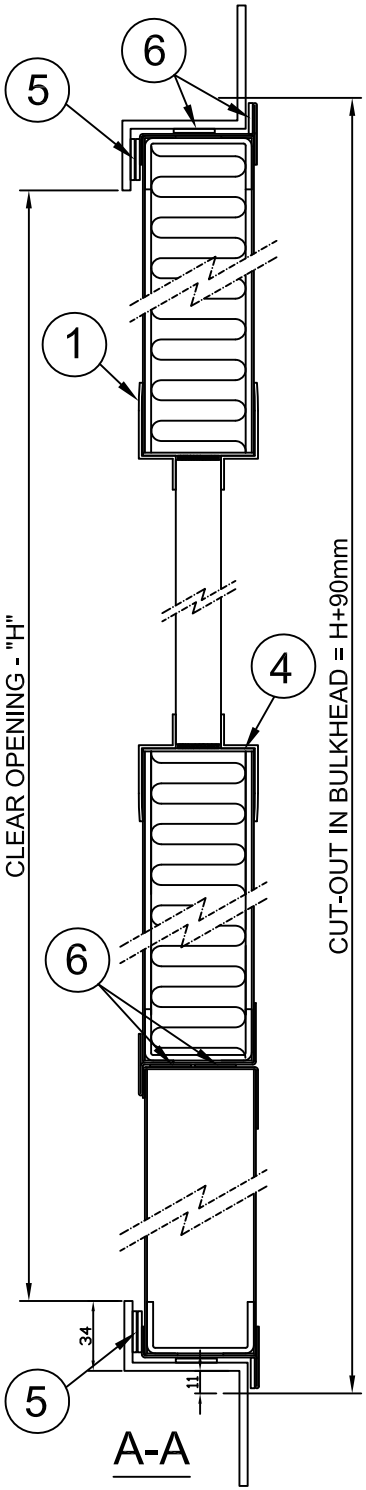

Like the rest of the products, the available colors and finishes might be the same as the ones used for the bulkhead where it has to be mounted or different according to the color list.

It is also valid for A-15 and A-0 classes.

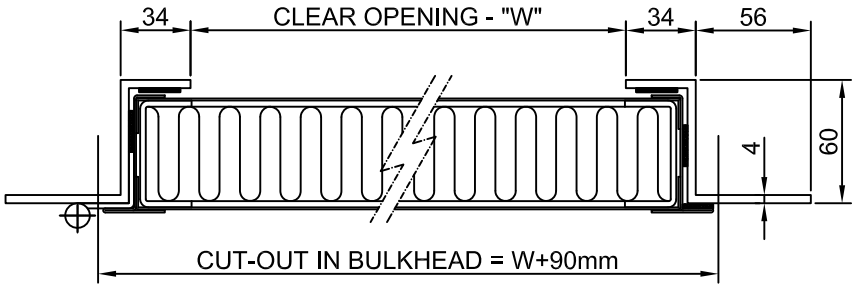

| DESCRIPTION | ISONELL P30 DOOR |
|---|---|
