

P60 DOUBLE DOOR

The purpose of this door is to get the same class as the bulkhead class where it has to be mounted, obtaining an A-60 class room or bulkhead, with a double door.

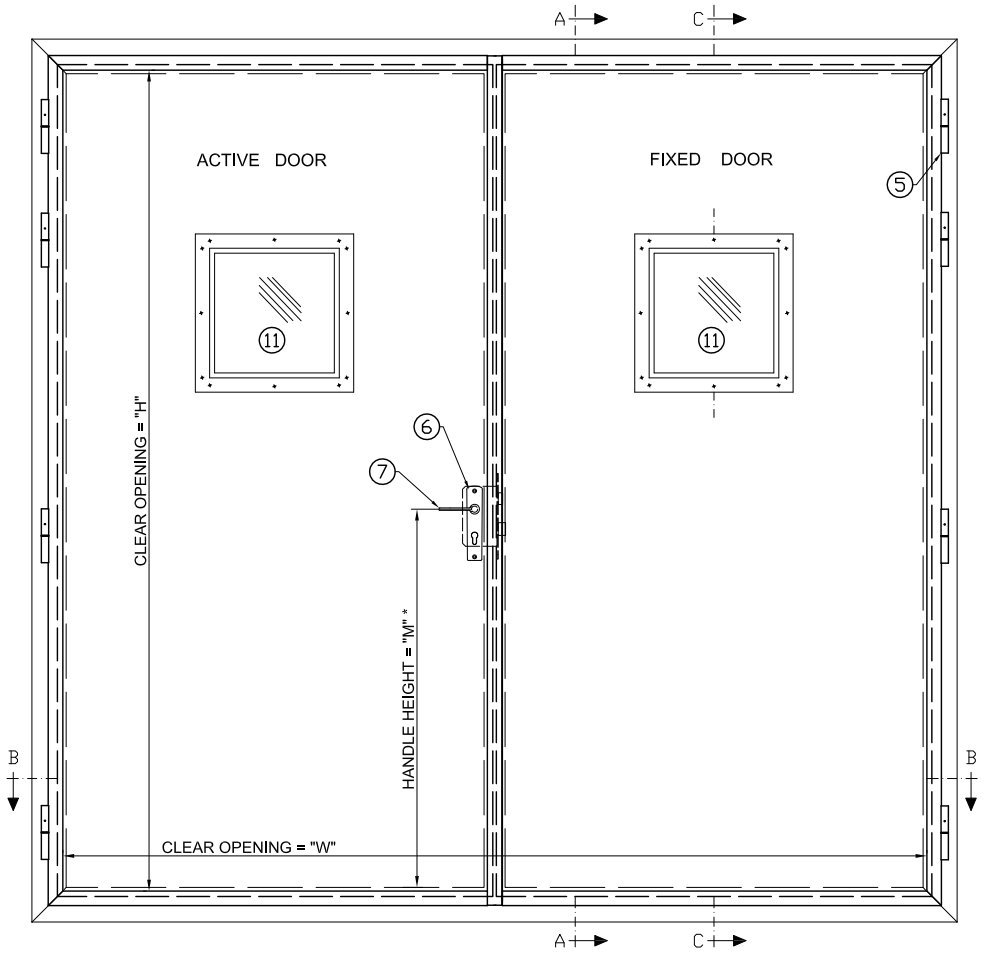

The door is made up of a stainless steel or painted steel frame, the leafs and the corresponding closing and supporting devices: stainless steel handle and lock, pins for passive door and hinges provided with self-closing device or door closer.

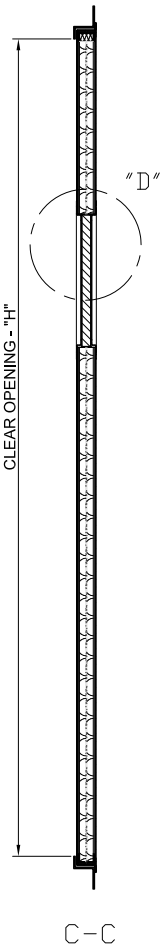

As for the rest of the products, the available colors and finishes might be the same as the ones for the bulkhead where it is fitted or different according to the color list.

It is also valid for A-30, A-15 and A-0 classes.
